---

Good Evening Council members,

I have lived in this wonderful community for 21 years.

I have never been a political person however I am concerned how the recent appointment of the new city manager came to be. I understand that we vote this person in.

There is so much controversy on this new person that I feel more harm may be coming to Yucaipa than we wish for this wonderful community.

Please allow our community to vote for the right person versus assigning this position.

Allow us to have a voice and a vote. I would greatly appreciate you slowing the process and let democracy go forth versus appointing.

Thank you,  
Cheryl Larry
