Subject: Yucaipa Valley Wine Country Planning Committee

I just saw the agenda for tonight's council meeting. This is, evidently, an end run around the YVWC planning committee. None of the specific plan was discussed at any meeting. In fact, some have become obstructionists to the entire process.

Rest assured the Chair, in this instance, does NOT speak for the committee. We still have work to do.

To hear a board member say that the committee will not meet again is disheartening, to say the least.

This is a brand new concept for Yucaipa and it may be difficult for some to see a new vision. Please, let us finish our work. It would be a shame to have committed so much time and effort to have it destroyed so close to the finish line.

Donna Snodgrass
Vice Chair, YVWC PC
