Hello Yucaipa Team

Thank you for allowing us to express our thoughts regarding the white trucks in the new retail area on Yucaipa Blvd near the freeway.

As a 17 year resident I have passed by that property for a very long time, hoping that Stater Brothers would open there one day, when I heard about the news of new businesses going to be developed there it was exciting news ( Yucaipa is moving on up). I feel that Yucaipa has not progressed as quickly as some other neighborhoods around us, we have a beautiful community but mostly it's by what Chapman has brought to Yucaipa.

Yes there has been improvements but slow....very slow. The trucks in that area of our town look like a truck stop no pun intended. It's unsightly. I understand the need for business but this not what residents such as I imagined. I can't imagine new home owners seeing that as an attraction to want to move in to Yucaipa.

My family of 6, would prefer them not to be there, thank you for this space to voice our opinions.

Warm regards  
Sanchez Family.

Yucaipa.
